PRODUCTS

**E**ven if your security plan requires employees to wear uniforms, all clothing eventually becomes stained or worn out and gets discarded. Your uniforms could end up being worn by anyone.

We've all heard of the devastating results of failure to verify identity. In these times of heightened security awareness, organizations must take steps to protect their clients and your reputation by utilizing tamper-proof photo ID cards that are produced with stringent checks to help ensure they cannot be forged or duplicated. Like credit cards, they are printed using a dye sublimation process.

ID MAN™ PHOTO BADGES ARE  
EXTREMELY DURABLE

For a full range of products, accessories and pricing, go to [www.IDMan4U.com](http://www.IDMan4U.com).

We make customized badges with solid PVC plastic—not lamination—so they'll last for years with normal use. They display whatever information is important to your business, and the words and images are tamper-proof. We can add barcodes and holographs for extra security.

**WHO NEEDS PHOTO BADGES?**

Anyone who deals with the public, or who must gain access to secure areas, such as:

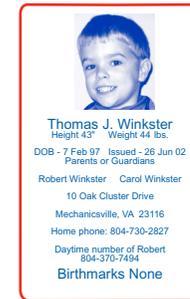

- > Freight transportation operations
- > Schools systems
- > Day care providers
- > Professional tradespeople
- > Municipal entities
- > Law enforcement agencies
- > Airport operators
- > Event management entities
- > Businesses organizations
- > Firms handling dangerous or sensitive material
- > First responders
- > IT and communications professionals
- > Disaster response personnel

**ALREADY HAVE A CARD-BASED  
ACCESS CONTROL SYSTEM?**

We can usually print ID information on your existing cards, reducing the need for carrying multiple cards.
